PROFILE SUMMARY

NetSuite Techno-Functional Consultant with **5+ years of hands-on experience** across functional architecture, SuiteScript development, end-to-end ERP implementation, and managed-services support. Proven track record leading business requirement-gathering sessions and translating complex workflows into scalable NetSuite solutions across **Order-to-Cash (O2C), Procure-to-Pay (P2P), Financial Management (GL/AP/AR), Inventory, Logistics, and Fixed Assets**. Expert in SuiteBuilder configuration, SuiteFlow workflow automation, Saved Searches, and SuiteScript 2.1 (Suitelet, Map/Reduce, User Event, Scheduled Script, RESTlet, Custom GL Plugins) for 3-way matching, financial reporting, and e-document certification. Experienced in fit-gap analysis, Solution Design Documentation (SDD), UAT scripting and execution, Master Data Management (MDM), executive dashboards, and user enablement across Production and Sandbox environments. Currently pursuing an **MBA in Finance** to further enhance financial domain expertise and strategic ERP value delivery. Full-stack development foundation (Node.js, React, PostgreSQL, REST APIs) facilitates robust technical execution and complex third-party system integrations.

PROFESSIONAL EXPERIENCE

Senior Executive — NetSuite ERP — Bloombay Enterprises

Jul 2024 – Present

- Lead the post-go-live managed-services lifecycle for NetSuite ERP — directing ticket triage, root-cause analysis, and solution design across SCM and Finance modules, ensuring high system uptime and data consistency across Production and Sandbox.
- Architect, develop, and deploy robust SuiteScript 2.1 customizations (Suitelets, Map/Reduce, User Event, Scheduled Scripts, RESTlets) to automate core business logic, e-document generation, digital certification, and 3-way matching workflows.
- Conduct comprehensive fit-gap analyses for new business requirements, guiding stakeholders toward standard NetSuite (SuiteBuilder) features where viable and articulating ROI/maintenance trade-offs before initiating custom development.
- Design and configure SuiteFlow workflows and scheduled automation across O2C, P2P, and inventory operations, delivering a measurable 20%+ increase in overall operational throughput and reducing manual touchpoints.
- Maintain and enforce master data governance to ensure accuracy and integrity across financial and operational records; maintain end-to-end transaction integrity for Order-to-Cash and Procure-to-Pay processes.
- Develop custom Saved Searches, SuiteAnalytics datasets, Financial Reports, and Executive Dashboards to facilitate real-time operational tracking and strategic executive decision-making.
- Deliver structured application support, standard operating procedure (SOP) documentation, and cross-functional training to SCM, Procurement, and Finance teams, ensuring seamless adherence to NetSuite best practices.

ERP Functional Consultant — Proteus Technologies Pvt Ltd

Dec 2022 – Jul 2024

- Led end-to-end client onboarding and ERP implementation lifecycles — defining project scope, milestones, and deliverables, and translating business requirement-gathering sessions into functional configurations.
- Authored and executed comprehensive User Acceptance Testing (UAT) test scripts, tracked functional discrepancies, and coordinated with technical teams to align system behavior with signed-off business requirements.
- Delivered structured key-user and end-user training programs across client organizations, substantially driving user adoption and minimizing post-implementation support overhead.
- Managed master data migration, validation, and data mapping for accuracy, completeness, and reliable reporting across financial and operational modules.
- Delivered hands-on live cutover support and early-life stabilization following go-live, ensuring minimal disruption to business operations during critical transition phases.

CRM Support and Implementation Executive — Proteus Technologies

Mar 2022 – Dec 2022

- Supported CRM implementation and functional configuration — user setup, master data import, role-based access, and analytical report configuration for multi-client deployments.
- Resolved user support tickets, administered change requests, and deployed minor workflow enhancements to enhance CRM usability and system adoption.

PROJECTS

NetSuite 3-Way Reconciliation & AP Automation Engine Bloombay Enterprises

- Architected a Suitelet UI and Map/Reduce automation engine performing automated 3-Way Matching across Purchase Orders (PO), Item Receipts (IR), and Vendor Bills (VB) with configurable tolerance limits and line-level discrepancy detection.
- Implemented dynamic CSV export, variance reporting, and automated exception routing, reducing manual AP reconciliation effort by over 70%.

Automated Financial Statements & Bulk Distribution Engine Bloombay Enterprises

- Developed Suitelet, Scheduled, and Map/Reduce engines generating dynamic Customer, Vendor, and Employee Statements using Advanced PDF/HTML Templates with automated multi-recipient bulk email dispatch and audit logging.

Transfer Order Indent & FEFO Inventory Fulfillment Automation Bloombay Enterprises

- Engineered RESTlet and User Event solutions automating multi-location Transfer Order indents, First-Expiry-First-Out (FEFO) lot auto-allocation, and real-time Item Fulfillment validation controls.

ERP IMPLEMENTATION & MIGRATION PROJECTS (VISION ERP)

INUEN & GELTEC — ERP Implementations 5 Months / 4 Months

- Implemented and provided go-live support across SCM, Finance, Inventory, Logistics, and Manufacturing modules; managed master data migration, user training, and post-implementation stabilization.

SUN PETRO — Enterprise ERP Migration 3 Months

- Delivered functional cutover and go-live support for enterprise migration from legacy E12 system to Vision ERP across Purchase, Sales, Inventory, Logistics, and Finance.

ALDE MEDI & NEON — HR & Fixed Assets Implementations 3 Months / 6 Months

- Configured HR and Fixed Assets modules, establishing automated approval workflows, asset depreciation schedules, employee master data setup, and statutory reporting.

Bi-Directional NetSuite ERP Integration APIs (PO & Vendor Sync) Enterprise Middleware

- Architected secure RESTlet and FastAPI microservices with Token-Based Auth (TBA) and webhooks synchronizing Purchase Orders (PO), Vendor Masters, and Item Masters with external 3PL and supplier portals.

Daily Task Automation & Corporate Excel VBA Macro Suite Operations & Finance Automation

- Engineered modular VBA macro toolkits (Indent-to-SO/TO, Wastage Adjustments, Item-to-Bin Mapping, CSV Batch Exporters), eliminating 15+ hours weekly of manual data formatting and data entry errors.

KEY SKILLS

NetSuite Technical: SuiteScript 2.1 (Suitelet, Map/Reduce Script, User Event Script, Scheduled Script, RESTlet, Client Script, Custom GL Plugins), SuiteFlow, SuiteBuilder, Saved Searches, SuiteScript Search/Query API, Advanced PDF/HTML Templates

ERP Business Processes: Order-to-Cash (O2C), Procure-to-Pay (P2P), 3-Way Matching, Financial Management (GL/AR/AP), Inventory Management, FEFO Allocation, Logistics, Fixed Assets

Implementation & Support: Fit-Gap Analysis, Requirement Gathering (BRD/SDD), UAT Scripting & Execution, Master Data Management (MDM), Go-Live Support, Production & Sandbox Support

Reporting & Analytics: Saved Searches, Financial Reports, Dashboards, Executive Reporting, NetSuite AI (SuiteSense) awareness

Technical & Full-Stack: Python, FastAPI, Node.js, Express.js, React, Vite, Redux Toolkit, PostgreSQL, Prisma ORM, REST API Development, SQL, Schema Design

Financial & Analytics Tools: Advanced MS Excel, VBA / Macros, Power Query, Financial Modeling, MS PowerPoint, Git, Postman, Jira

EDUCATION

Master of Business Administration (MBA) — Finance (Pursuing)	Jul 2025 – Present
Bachelor of Business Administration / Bachelor of Management Studies (B.B.A / B.M.S) — Mumbai University	2021
